Batching Tray

Overview

Designed to replace manual counting, spearing, and weighing, Streamfeeder's Batching Tray System is packed with unique features that make it the best value in the marketplace today. Automate your batch counting operations by adding this batch tray to one of our related feeders. Simply remove the finished batch and place into your semi-automatic L-bar sealer, bander, or strapper for accurate, mistake free batches. Tool-less adjustments make for quick set up and maximum versatility.
